

About Trusscore

Trusscore products are transforming residential construction. Why?

Because they're designed as the ideal alternative and improvement for conventional residential wall systems like painted drywall.

Strong, light in weight, and easy to install, Trusscore products deliver improved functionality for a home, particularly for a home's utility areas – think garages, workshops, laundry rooms, basements, and mudrooms.

Trusscore Wall&CeilingBoard and Trusscore SlatWall are made from PVC. They create a fabulous bright, clean finish that's long-lasting, waterproof, and abuse resistant – perfect for high-traffic areas.

Trusscore Applications

Trusscore is perfect for all types of residential spaces, including:

- Garages
- Workshops
- Basements
- Laundry Rooms
- Kitchens
- Pantries
- Mudrooms
- Craft / Toy Rooms

Trusscore wall systems are transforming the residential construction industry.

Trusscore is perfect for residential spaces.
